Statement of Philosophy

We at Flinders View Preschool aim to provide an environment where all children, families and educators feel welcome and valued. We treat all children, families and educators in a respectful, equitable and caring manner and aim to build strong, trusting and respectful relationships with them in a setting which considers cultural diversity. We work to build positive partnerships with the local community and Support Agencies.

We provide a setting where children have opportunities to develop their potential through both structured activities and play based activities within the indoor and outdoor learning environments. Educators reflect regularly on their planning and evaluation practices in order to maintain a high quality, inclusive and stimulating program for all children.

We encourage and educate children to make healthy eating choices and be active during their time at Preschool in order to develop healthy lifestyles for the future. We recognise the importance of sustainability in today's society and encourage children to recycle materials whenever possible.

Above all we hope that children within our setting are independent, confident and happy and develop the necessary life skills for their future learning.
